THE NEW ENGLAND ANNUAL CONFERENCE OF THE UNITED METHODIST CHURCH

Insurance and Risk Management Program

Effective August 1, 2020
Dear Church Leader:

Fred C. Church Insurance and Church Mutual Insurance Company are proud to have been chosen by The New England Conference for the Conference Unit Insurance Plan. This edition of our booklet details the Insurance Plan as of August 1, 2020. This has been updated to include the enhancements we have made, and still includes all the basics about your insurance program.

We understand the value your property and other financial assets have as part of the mission of your church. As pastors and trustees, you have played a key role in the important responsibility of protecting those assets. Through safety awareness, ongoing property maintenance, and good communication to your congregation, you can continue to help manage the risks of financial loss.

We want to renew the commitment we made in 1998 – to support and focus your local risk management efforts as much as possible.

To do that, we will continue to:

- **Respond** to your questions and concerns – quickly, honestly, pleasantly and helpfully.
- **Resolve** your insurance claims – fairly, sensitively and responsively.
- **Communicate** with you regularly – to coordinate and facilitate your risk control efforts.
- **Educate** your trustees, your employees and your congregation about risk prevention.

Finally, we will keep working hard to provide you with the broadest coverage, most competitive premiums, and best service we can. Your Conference chose Church Mutual and Fred C. Church because of the strength of our program in all three of these areas. Both of our organizations appreciate that choice, and we look forward to the opportunity of continuing our relationship.

*Flood Coverage, inside FEMA High Hazard Zones*

High Hazard FEMA Flood Zones such as A, V & D:

Catastrophe flood coverage provided over a $250,000 deductible at these locations.

Additional Flood Coverage may be obtained through Fred C. Church for locations in high hazard zones through the National Flood Insurance Program. To determine what Flood Zone your church property is in, you should contact your local town or city hall; if unsuccessful, call us at Fred C. Church.
4. **Claims Settlement Basis**
   Replacement / reconstruction cost is the basis for valuation of property losses. This means that your damaged or destroyed property is insured at the full cost of repair or replacement with new property of like kind and quality, subject to a limit of your combined building and contents (blanket limit) for all of your locations. If you do not repair or replace, then your claim settlement is based on Actual Cash Value (replacement cost less depreciation).

It is important that you notify us of any changes, which might create a property or liability exposure difference. This includes vacant properties (other than parsonages), new construction and major renovations.

Who to Notify

For any changes, including those which may seem inconsequential to you, please notify your Fred C. Church service team. Please call us if you are not sure whether something requires notification.

What We Need to Know About

Please let us know about any of the following:

- Building changes – new construction, renovations, repairs, and demolitions that exceed 10% of the value of the property.
- Other property – substantial purchases or gifts of furniture, office equipment, computers, athletic and playground equipment, fine arts, musical instruments, etc. which increase your values.
- Operations changes – new activities which might produce a risk of liability, such as camps, schools, day care or church-sponsored special trips.
- Tenants – outside organizations which use your church on a one-time or regular basis and whose activities might increase the likelihood of personal injury or property damage.
- All other – anything which might possibly constitute a major physical or operational change to your current program or physical plant.

Most of these changes will be covered – some automatically and some with specific handling, including a separate premium charge for your church. However, some will not; it is critical that you let us know.

**Unit Insurance Plan Resolution concerning use of Public Adjusters:**

*Because the Conference Unit Insurance Program is a “connectional” program under which the Conference is the primary policy holder and individual churches are “additional insureds” thereunder, the Conference believes that it is in the best interest of the insurance program to maximize the recovery to entities experiencing a loss, while at the same time, minimizing the total amount of claims under the insurance policy (currently a dividend is available if loss ratios are minimized). Toward that end, the following procedure shall govern losses under the insurance program:*

a. For a period of ninety (90) days following the report of a loss (or potential loss) under the insurance program, no commercial “public adjusters” may be engaged, and any attempted engagements during such period shall be null and void.

b. Upon request directed to the Insurance Committee, and for good and sufficient reasons, the Committee may “waive” this “waiting period” and approve retention of a public adjuster for a given loss claim.

c. During this 90-day period (or shorter if waived), the insured will work in good faith with the Insurance Program’s selected Agent to settle the claim to the satisfaction of both the local entity suffering the loss, and the insurance underwriter.

d. If, after such 90-day period, good faith discussions have not resulted in a resolution of the claim to the satisfaction of the entity suffering the loss, then, if deemed necessary, a local entity may vote to engage a public adjuster. Said vote shall be taken by the Trustees of other governing body only after notice of the intent to do so is provided to the Insurance Committee (through the Conference Treasurer’s office) seven (7) days before such vote.
Certificates of Insurance

Certificates of Insurance are becoming a frequently-used risk management tool for many businesses and organizations. You will be required by others to provide them, and you should be asking for them in certain situations.

What are they

A Certificate of Insurance is simply evidence that an insurance policy exists, typically presented by the insured on that policy to an outside party who has some financial interest in the policy’s coverage.

When You Should Request a Certificate

You can and should request a certificate from any organization or individual – especially a tenant or a contractor – who is using or working on your premises, equipment or other property.

You should require that both your church and “The New England Annual Conference of The United Methodist Church” – be named as additional insured on their liability policies.

You should always request a certificate evidencing General Liability and – when appropriate – Workers’ Compensation (if their employees will be on your property or doing any work for you) and Automobile Liability (if they will be using their vehicles) or Sexual Abuse (if they have children on your property).

By making these requests and obtaining certificates, you will be accomplishing two important risk management objectives. First, you will be sure that they indeed have insurance to respond to an accident or lawsuit; otherwise, you could suffer financially. Second, if your church is named in a lawsuit even though there was no negligence on your part, their policy will cover you – if you are named as an additional insured on their policy.

When Someone Requests a Certificate from You

Should another organization request a Certificate from you, simply contact your Fred C. Church service team. We will send it right out – one copy directly to the certificate holder, and one for you.

Examples of situations where you might be required to produce a Certificate of Insurance include:

- Bank which holds a mortgage or lien on your property,
- Leasing company who is leasing office or other equipment to you,
- Event at which you will be exhibiting or having a booth, table or display – such as a crafts fair or town day.

When you request the certificate, please try to let us know:

1. Name and address of the organization making the request, including specific individual who should receive Certificate if necessary.
2. Reason for the certificate.
3. What policies of yours they require evidence of, and any specific requests for limits of liability or coverages.
4. If they want to be named as an “Additional Insured.”
5. Any other special instructions.
Church Mutual / Fred C. Church Visits

We want to help you with your risk control efforts, we want to see your church, and we want to meet you. All of these will be accomplished as representatives of Church Mutual and Fred C. Church come to visit.

When & Why We Will Visit You

Church Mutual’s loss control representatives will be visiting churches throughout the Conference on a regular basis. Their primary objective is to better understand the risks that they are underwriting. Specifically, they want to check on the values and condition of your church and any other buildings; review maintenance programs and planned construction; evaluate your safety and operations; and – very importantly – answer your questions and address your concerns. Sometimes they contract with an outside firm to conduct the local visit; Mueller Reports. Mueller representatives may also reach out to you directly.

Fred C. Church staff will also visit certain churches to get to know you and your insurance/risk management needs.

What to Expect

Visits should last anywhere from 1-2 hours and in most cases will be with the pastor. However, we would welcome the opportunity to meet with any other members of the church – e.g. trustees or employees who have an interest in risk management.

We will not show up unannounced. Visits will only be made as pre-arranged appointments. Upon arriving, Church Mutual and Fred C. Church staff will ask for the individual with whom the appointment was made, introduce themselves and their organization, and present you with a business card.

We will call the church ahead to make an appointment – all we ask is that you call us back!

If you have any questions or concerns on someone who contacts you concerning an insurance matter, please don’t hesitate to call us.

Most Common Concerns

Based on our prior client work with churches and other non-profit organizations, as well as the many calls we have had from members of the New England Conference since 1998, we know there are some commonly asked questions.

Here are the ones we get most frequently with answers we hope you will find clear and helpful (if not, please call us):

Q  What changes do we need to notify you about?

A  Any changes to your buildings or property; new construction or major renovation, any new activities which might produce a risk of liability; and any other significant differences to your current church operations.

Q  Will changes at our church change our premium?

A.  Possibly. Your premium may be adjusted based on new or sold locations if the value change is over $1,000,000. Other changes will most likely have no impact on your premium until the program renewal date.

Q  Is there coverage for the pastor’s personal property or liability?

A.  No. Only business property of the pastor is insured through our program, and is limited to a maximum of $25,000. It does not provide any personal liability coverage. You should have your own homeowners or tenants insurance.

Q  If we request a Certificate of Insurance from a group using the church and they do not have insurance, does that mean we need to end this program?

A.  No – many small groups and outreach programs have neither insurance nor assets. Use your good judgment, but is okay not to get Insurance Certificates from everyone. Please call Fred C. Church staff to discuss individual situations.

Q  Following a loss control visit by Church Mutual to our church, will they send us a written report of their findings? Also, how will our insurance coverage be affected by whether or not we comply with the recommendations?

A.  You will always receive a written report following a loss control visit. Recommendations will generally be advisory, and you can decide if, when, and how to implement. Occasionally there could be a mandatory recommendation, which you should implement, but you should call Fred C. Church to discuss if you feel it is unreasonable. It is expected that you will provide a written response to Church Mutual on the status of their recommendations.

Q.  Where and how can we obtain a hard copy of this booklet?

A.  Call Fred C. Church – we will be glad to send you a booklet by email or paper mail. This booklet is also on the Conference web site:  http://www.neumc.org/propertyworkerscompensationinsurance

Q  How are Daycare Programs covered?

A.  This program covers all church-run daycare programs, nursery schools, etc. General and Umbrella Liability, Non-Owned Automobile Liability and Workers’ Compensation coverages all apply at the full policy limits. Sexual Molestation is provided on the General Liability policy up to a limit of $5,000,000. Tenants using your church for their operations need to have their own insurance.

However, you must notify us of any state licensed church owned or operated daycare or school operation.
Q. What if our church has property of significant and unique value, such as a particularly valuable painting or statue?

A. Fine Arts are insured at a limit of $15,000 any one occurrence on the Church Mutual policy. Should you wish to review your coverage limit, please contact Fred C. Church.

Q. How do we contact the Conference Insurance Committee if we have comments about Church Mutual, Chubb, Fred C. Church or the program in general – positive, constructive, or otherwise?

A. We would greatly appreciate your feedback – please contact either Co-Chair of the Conference Insurance Committee:
   LaVergne Randolph – telephone 617-969-6168, email lvrandolphjr@gmail.com
   Marti Bower – telephone 401-823-2927, email mabowe@cox.net

Q. How will Hartford Steam Boiler handle state-required boiler inspections?

A. All state-required boiler inspections will be done, at no cost to your church, through this insurance program. You should know that Boiler & Machinery insurance is quite specialized and only underwritten by a few insurers. Hartford Steam Boiler is one of the largest Boiler & Machinery insurers in the world. They will be doing all inspections for the Conference program. Should you need a boiler inspected please contact our office. Or, you can call the inspection hotline directly at 800-333-4677. In some states, there is a fee charged by the state department for issuance of the inspection certificate. This cost is outside of the insurance program.

Q. What if we have a building which is not being used?

A. A “vacant” building is: unoccupied, empty of contents, or not used or maintained on a regular basis. Buildings under construction are NOT considered vacant.

If the building where loss or damage occurs has been vacant for more than 60 consecutive days before that loss or damage occurs, then loss or damage from the following causes are not covered:
   (a) Vandalism;
   (b) Sprinkler leakage, unless you have protected the system against freezing;
   (c) Building glass breakage;
   (d) Water damage;
   (e) Theft; or
   (f) Attempted theft.

With respect to loss from any other covered cause, the amount paid is reduced by 15%.
(Except in Massachusetts, losses caused by fire or lightning are not covered if the building is vacant for 30 consecutive days or more)

Please be sure to check your buildings on a regular basis and let us know if you have any concerns about it being considered vacant.

The vacancy restriction does not apply to parsonages
(Except in Massachusetts restriction applies to losses caused by fire or lightning if the parsonage is vacant for more than 60 consecutive days).
