

Help supervise health-kit building/UMCOR trailer at Annual Conference

We will again be building health kits at Annual Conference, and have set a goal of putting 1,000 kits together. To help us reach our goal we need volunteer supervisors to facilitate the process and for the drop off of donations at the UMCOR trailer.

The kit building schedule is listed below. If you can fill or partially fill any of the shifts on the kit-building schedule, please email or call Barbara Burnside, Conference Disaster ERT & Mission Coordinator at baburnside@neumc.org or (978) 682-8055, ext. 135. Only two volunteers are needed per shift and will be assigned on a first-come-first-served basis.

We are fortunate to have experienced UMCOR HUB managers from two of the four HUBS in New England, St. James UMC HUB in Merrimack, NH, and the Central Vermont HUB, who will oversee each shift, train volunteers and answer any questions. [Learn more about HUBs](#)

Wednesday, June 15
